MID-SEM PROJECT RUBRIC

Evaluation Criteria & Grading Standards

EVALUATION COMPONENTS

1. TECHNICAL IMPLEMENTATION / 10

- **Correctness & Completeness:** Does the code run without major errors? Are all functional requirements met?
- **Depth & Complexity:** Evidence of understanding beyond basic templates.
- **Design Choices:** Justification for algorithms, models, and data structures.
- **Performance:** Accuracy, speed, and efficiency of the solution.

NOTE: *Students should NOT use Agentic AI or GenAI-based methods. This evaluation is strictly on Traditional ML and Deep Learning.*

2. GITHUB REPOSITORY & CODE QUALITY / 10

- **Readability:** Clean code, proper naming conventions, and modularity.
- **Structure:** Logical organization of files and folders.
- **History:** Frequent, meaningful commits showing incremental progress.
- **Documentation:** Comprehensive `README.md` with setup instructions.

NOTE: *This part may be automated using scraping and evaluated using AI tools.*

3. HOSTED LINK / LIVE DEMO / 10

- **Deployment:** Application is accessible via a public URL.
- **Functionality:** The hosted version works as intended during the demo.
- **Stability:** No crashes or timeouts under normal use.
- **Usability:** Intuitive interface (Streamlit/Gradio).

4. PROJECT REPORT (LATEX) / 10

- **Structure:** Logical flow (Abstract, Intro, Method, Results).
- **Clarity:** Clear technical explanations and writing quality.
- **Content:** Inclusion of relevant figures, results tables, and citations.
- **Formatting:** Professional LaTeX typesetting.

5. PROJECT VIDEO (5 MINS) / 10

- **Explanation:** Clear problem statement and solution overview.
- **Demonstration:** Walkthrough of the working system.
- **Production:** Good pacing, audio clarity, and video quality.

6. VIVA VOCE / 10

- **Understanding:** Depth of conceptual knowledge.
- **Justification:** Ability to explain why specific choices were made.
- **Contribution:** Evidence of individual ownership and effort.

RECOMMENDED WEIGHTS

The final score will be calculated based on the weighted sum of the components below.

COMPONENT	WEIGHT
Technical Implementation	0.30
GitHub & Code Quality	0.15
Hosted Demo	0.10
Project Report (LaTeX)	0.15
Project Video	0.10
Viva Voce	0.20
TOTAL	**1.00**
